

School Council Minutes

The lady who does the school uniform has called people about the running kit but has had no reply come through so that is still ongoing.

Sputnik has asked for a curtain outside the 5/6 toilets, where they get changed, as they are exposed to people walking by. School Council however have said that they will not get one as people will only look to see what the noise is all about, as there`s a lot of noise at the moment. Meaning if children are quiet no one will know that they are there. So just get change quickly and quietly. However if this incident comes up again then school council will come back at this again.

Door monitors do not put their chairs away after break and after lunch which can cause an accident when the rush of getting to class comes. It is also a pain for some children in class Liberty when they want to get to the pegs as chairs are in the way. So please put them away. Y6 school councillors are to remind the door monitors about it.

The P.T.A is looking into playground designs for KS1. If this plan is continued there will be permanent, fun squiggly lines, a little bright maze or green dinosaur footprints. We`d rather have designs that younger children can use their imagination then set patterns.

Next Meeting: 6th February 2014

Chair: Shay
