

School Council Minutes

Lily has been working on the letter for the sponsor and has now finished it. She will give it to Mrs. Berry. Mrs. Berry will now send it off meaning it's an ongoing progress.

Class Phoenix have suggested an over-night PJ party, but there were concerns of the fact that children would not sleep because they would rather be silly, which will mean other children would have no sleep. This will have affects on the next day, meaning children will not join the activities.

There have also been suggestions for a cooking club. The school council thought that without adult supervision, it would be unwise.

The pebbles in the junior play ground are still being removed from their proper place. We ask that you be careful not to kick them, because it can hurt if one hits you, or if you slip on one.

In KS1 children are being rather irresponsible by going into the toilets at break-time and locking the doors. They are then sliding under the doors of the cubicles and leaving them locked. The door monitors are to check that nobody has locked the doors. The councillors have said that if this continues the locks will be removed.

Next meeting: 5th December

Chair of next meeting: Robyn
