

School Council Minutes

Lily, after weeks of hard work, has written and given the letter to Mrs Berry. Mrs Berry is now going over the cost of it all with the P.T.A.

There has been an amazing improvement on the KS1 toilets. Children have stopped sliding under the doors. So Thank you and please don't do it again as the locks will be removed.

The Boys in lower KS2 have been complaining about the dirt under the windows and have asked for it to be cleaned. However it will not be cleaned until the walls will get cleaned. Mrs Berry has said they may not get cleaned until the summer holidays.

There have been complaints about people using the apparatus as a goal net. School Council wants to let you know that you are not allowed to use them as goals reasons being: children playing on it will get hurt (even if it is a soft ball), if it hits a window it will leave a mark or break it. At lunch time do not kick the ball over average head height as it frustrates the lunch time supervisors.

The wood between the benches is there because children and adults have been cutting between the playing equipment and getting mud on the equipment and in the class rooms. Councillors are going to tell their classes and then the children are going to tell their parents. Please use the paths provided as the equipment will have to be banned in the winter months as they will be too slippery to use.

At the Friday school fair there will be donations for a three year old boy named Bobby Allen to raise money for a new wheelchair which costs £1000. If you give a donation you will get a little bag with a few chocolates in.

Next Meeting: 19th December

Chair: Robyn
